Then they, as the banks just named do, could maintain a permanent resumention. To bring about the relative position of the constitutional currency—specie or its equivalent. Fond where they are the presented with a new tariff above from the fact that they occupied the Executive Chair the constitutional currency—specie or its equivalent. Fond where they are then presented with a new tariff above from the fact that they occupied the Executive Chair the constitutional currency—specie or its equivalent. Fond where they are then presented with a new tariff above from the fact that they occupied the Executive Chair the constitutional currency—specie or its equivalent. Fond the constitutional currency—specie or its equivalent to the currency—specie or its equivalent could maintain a permanent resumption. To bring about our banks, I have felt it to be very difficult to decide on such a state of things, however, would take the people of the true course to be pursued. On the one hand, a prompt this State through an ordeal of pecuniary pressure and suffering that they have never experienced .- Journal,

all these arguments; what must inevitably be the ultimate not shut my eyes to the fact that a too precipitate action conclusion? Why of course, nothing else than that a re- may, as we have seen by the experience of other States, sumption would, in a pecuniary point of view, be vijurious retard rather than advance the time for resumption. No

. This is something we never thought of denying. Instead that of returning to specie payments. It is the basis on of that, we have from the beginning maintained that the which the whole system rests, and there can be no secubank was profiting by its suspension, and urged that as a rea- rity to the public in any other course. The only quesson why it should resume. Because, just in proportion as tion is, whether the position of the banks is such as to

of the bank apologist, the Journal. We contend that the interests of the people are of paramount importance; but the Journal maintains that the interests of the bank should be first consulted, and that of the People afterwards, if at all. Let the People judge between us. Be their decision what it may, we shall have at least the consolation to feel, that we as loudly denounce, as they historio applanded. No credit speculations with the funds of the ice itotion, thousands keys, recolored and policieal to look as next as when new, have endeavored to serve them, rather than their adversaries, from that State, to oppose the creation of a National Bank the regret at leaving any place that we did on our departance and in would have been saved and much misery avoided. But

regard with so much self-complacency. "If our banks should National Bank again, and, as they did during the last which our friends in old Vigo have testified their appro- following extract from the Spirit of the Times, Philadelphia, doing, where these establishments are in a state of suspenresume now," says the Journal, "though it would give more Presidential campaign, they will now endeavor to hide it bation; and not from any desire of writing an eloge on explains the matter: value to their notes abroad, yet it would not bring them up and keep it out of sight. to par, simply from the fact that every individual holder could not present them at the counters for redemption." The fact is true, but the simple reason of the Journal is not the only reason why it is so. Another and grand reason is, that real money is every where intrinsically valuable, while bank notes are only the representative of value at best.

United States vs. Joshua B. Oter.—This was a fine order. Will you please give fort, we shall be happy. Many will, in addition to those and from landing the fine of the immunity the conductors of banks enjoy from investigation, until the whole banking system falls into undistingtion, until the whole banking system falls into undistingtion, until the whole banking system falls into undistingtion, until the whole banking system falls into undisting the last week.
